

How to link a facebook account to another facebook account (transfer the account back to the customer or another agency)

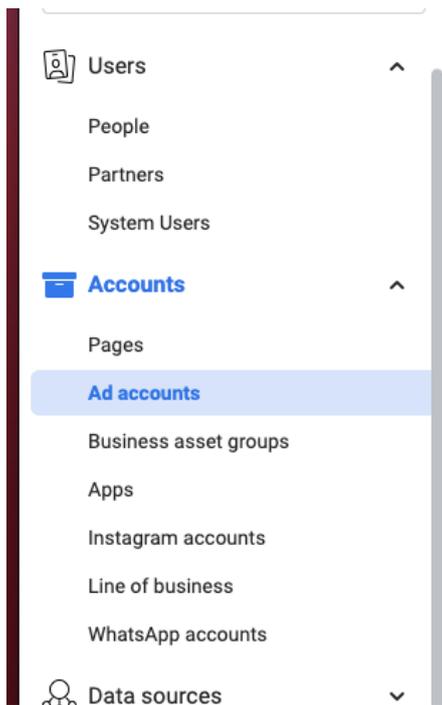

Step by step process on how to link a Facebook account to another facebook account. This would apply for instance if a contract is ending and we are in the process of giving access to the Facebook account to the customer or to another agency.

1. Long into the customer's facebook business manager
The page should look like this

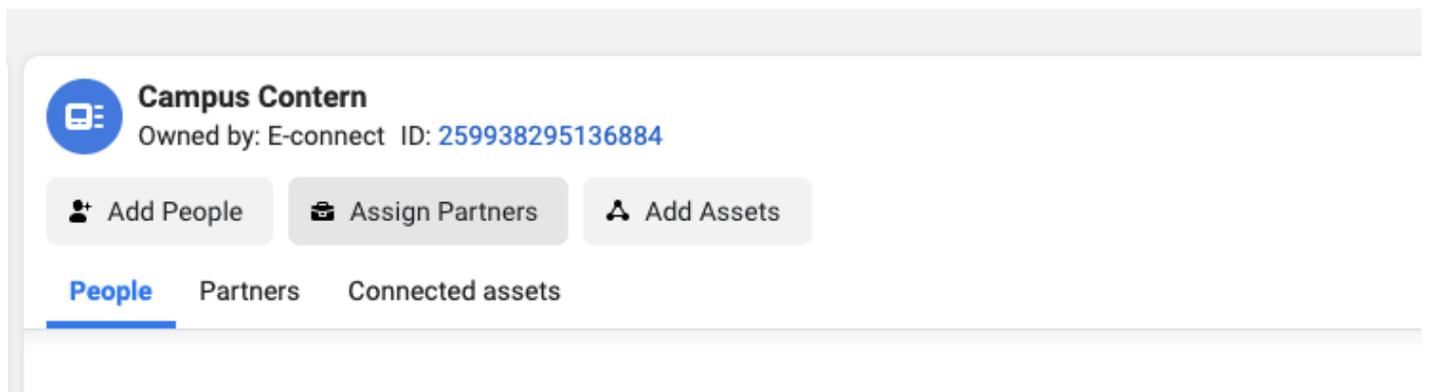

2. click on "business settings"

3. click on ad accounts

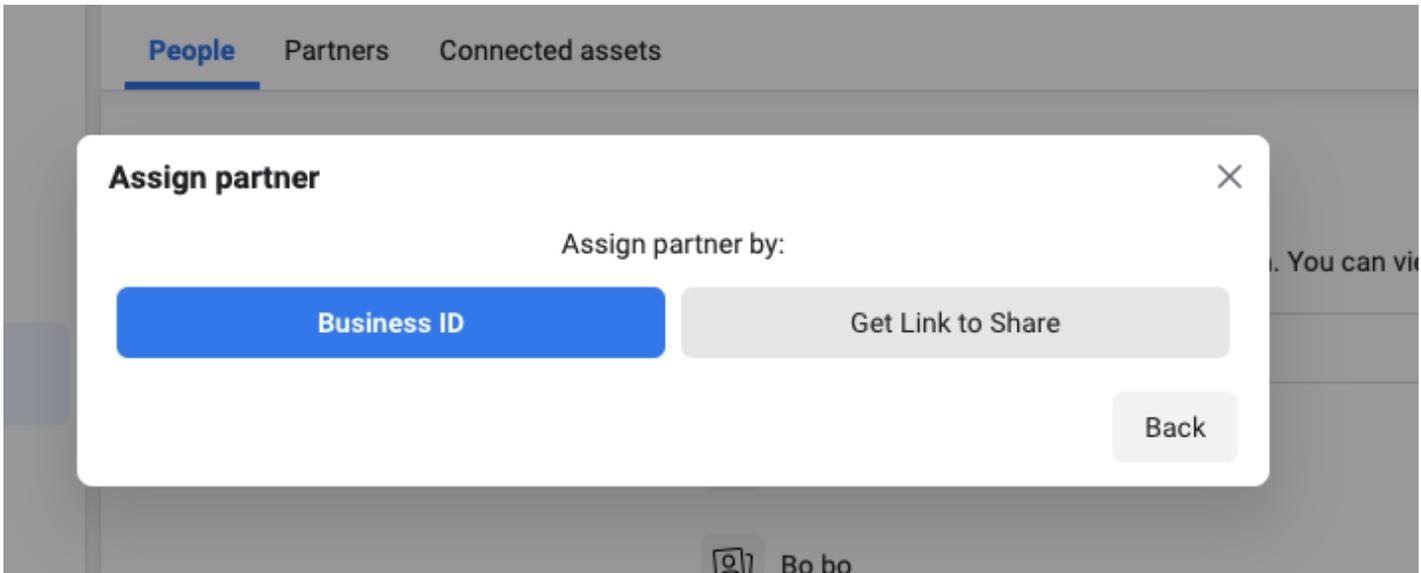

4. Select account

5. Click on Assign partner

6. Click on "Get Link to Share"

7. click on "Manage ad account"

Share this ad account with a partner ✕

Allow another business to work on Campus Contern. Select their permissions to create a link that you can share.

Partial access

Manage campaigns

Create and edit ads, access reports and view ads

View performance

Access reports and view ads

Manage Creative Hub mockups

View, create and edit mockups in Creative Hub

Full control

Manage ad account

Control ad account settings, finances and permissions. Create and edit ads, access reports and view ads.

Link to share

https://business.facebook.com/share_by_link/1488957368131713/OFp1i... 📄 Copy

Each link can only be used once to connect to another business. If the person you send this to doesn't have a Business Manager account, they'll need to create one.

This link will expire in 30 days.
